

Meeting #8 Agenda: Final **Sharing** and Reflecting

**Questions, Comments, Concerns**

How is everything going?

**Brief Update: What You Did With Your Syllabi and Assignment Sheets**

Just let us know where you are at and what you plan to do before you submit them.

**Chatting About Our Time Together**

What we learned, how our thinking about AI and its place in the writing and writing-intensive classroom has evolved, and what we are thinking about the future in terms of what we might do next with all of our classes and assignments.

What is exciting to you about all this? What is worrying to you about all this? What do you think will happen in the future (short term and long term) and how can we play a positive role in all that?

**Reflecting on The Workshop Experience**

What did you like about the workshop? What got you really thinking? How might we improve the workshop? Suggestions?

Are there any topics or avenues concerning that you would like to see discussed in greater detail? Or anything that felt unnecessary?

**What's Next?**
